

UNDERSTANDING THE CLAIM TRANSACTION CONTROL NUMBER (TCN)

Enterprise assigns a unique 17 digit Transaction Control Numbers (TCNs) to every claim transaction, including original claims, voids and replacement claims, and adjustments. The TCN assigned to each document allows tracking of the document throughout all stages of Health Enterprise processing. The TCN is a “smart number”, meaning that each character indicates some information about the claim. The following tables will assist with translating the Transaction Control Number.

The TCN format is: YYJJMBBBBDDDDDDT

TABLE 1: TCN PARTITION

TCN Character	Character Description	Explanation
YY	Last 2 digits of year	Based on claim received date
JJJ	Julian Date (3 digit code for month & day of claim received date (See Tables 4 and 5)
M	Media Source Code	Claim submission method (See Table 2)
BBBB	Batch Number (Internal DHS use only)	Claims are processed in batches
DDDDDD	Document number within batch (Internal DHS Use Only)	Identified specific document order within the batch (i.e. document 56 of 100)
T	Transaction Type	See Table 3

TABLE 2: MEDIA SOURCE CODE

Code	Description	Explanation
1	Web Submitted Claim	Claim received via Provider Web Portal
2	Electronic Crossover Claim	Medicare claims with Medicaid as secondary payer
3	EMC Claims - Electronic Media Claim	Electronically transmitted through billing software vendor, clearinghouse, or billing agent
4	System Generated Claim	Claim created by Enterprise for financial transaction (i.e. capitation and PCP payments)
8	Paper Claim	Paper claim scanned and manually data entered
9	POS (Point of Sale)	Pharmacy claims

TABLE 3: TRANSACTION TYPE CODE

Code	Description	Explanation
0	Original claim	
1	Void	Reversal of original claim (this occurs so replacement claim will not deny as duplicate)
2	Adjustment Credit	Credit adjustments appear as negative transactions. This is reversal of the original claim payment or State initiated adjustment.
3	Adjustment Debit	Debit adjustments appear as a positive amount. This is new payment to provider for replacement claim or State initiated adjustment.
4	Denied Replacement	Adjustment is performed and data on the replacement claim causes the claim to deny

TABLE 4: JULIAN DATE CALENDAR (NON-LEAP YEARS)

Day	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
1	001	032	060	091	121	152	182	213	244	274	305	335
2	002	033	061	092	122	153	183	214	245	275	306	336
3	003	034	062	093	123	154	184	215	246	276	307	337
4	004	035	063	094	124	155	185	216	247	277	308	338
5	005	036	064	095	125	156	186	217	248	278	309	339
