Welcome and Introductions, Hayden

Hazards, Threats and Mitigation Impacts – Kathleen Donahue & Russ Korzeniewski, ND Health and Human Services

- Presentation attached to minutes.
- What hazards are most concerning to this group:
 - Winter weather
 - Car accidents
 - Flooding
 - Grass fires

Health Literacy Project & TikTok Update, Katarina Domitrovich & Ruth Nwatu

- There are three different project withing the overall project. Working on a document to collect youth health history; a health literacy test; life transitions document.
- TikTok focus on physical activity.

The Campaign, Katarina Domitrovich

- Feedback on the Health Habits Campaign scripts
 - Better than the first ones; still needs some work, maybe too dismissive
 - The immunization script was much better
 - Like the sibling dynamic vs, the teacher
 - A couple of the phrases were a little odd

- Maybe too large of a sibling age gap
- Vague when talking about mental health
- The person doesn't always have to seem depressed/sad
- Muscles doesn't always equate to healthy
- Everyone will get a copy once the scripts are complete.

The board is getting an additional \$20,000 from the Workforce Grant. Taskforce would be a good way to come up with ideas on how to utilize these funds.

Next Meeting: March 12, 2023 - 3:00 p.m. to 5:00 p.m.
