

OUR BENEFITS —JUST GOT— EVEN BETTER!

Good news: Our company is participating in North Dakota's new child care matching benefit program.

We are offering a child care benefit that North Dakota will match for qualifying working parents.

The ND Working Parents Child Care Relief program could make a difference in helping hardworking parents like you afford quality licensed child care for your infants and toddlers. It works like this: the cost of child care is shared between the state of North Dakota, our company, and you. We all pitch in.
