

## **1915(i) Provider Enrollment/Onboarding FAQ**

How does my agency get started?

Refer to the 1915(i) Web Page [How to Become a Provider](#) and follow the steps outlined.

How long does the enrollment process take?

Becoming a provider ready to receive referrals and provide services can take several months. Completing the required steps thoroughly and accurately and responding promptly to requests from Provider Enrollment will ensure the process moves as quickly as possible.

Once both the group and individual enrollments are approved, there are trainings and additional steps required. If you have navigated the enrollment process without the assistance of the 1915(i) team, the next step would be to contact [nd1915i@nd.gov](mailto:nd1915i@nd.gov) for guidance on how to proceed.

What trainings and support are available?

It may be helpful to start with a training on 1915(i) Basics for your agency staff. Contact [nd1915i@nd.gov](mailto:nd1915i@nd.gov) to make a request. The [1915\(i\) Training Web Page](#) contains on-demand recordings/slide decks on a variety of 1915(i) and Medicaid-related topics. Ongoing opportunities for Professional Development will be shared with all enrolled providers as they are scheduled and will also be shared on the 1915(i) Training Web Page.
