TELEHEALTH (REMOTE SUPPORT)

Telehealth can be used. In-person support must be provided for a minimum of 25% of all benefit planning services provided in a calendar month.

See [Telehealth policy](#) for telehealth requirements.

NON-COVERED SERVICES

- Services not listed in the Covered Services section, including associated costs incurred for providing the service, for example, checking an individual’s eligibility.
- Services provided to a non-eligible individual. Providers are responsible for confirming individual eligibility prior to delivering each service.
- Services provided by a non-qualified provider. Group providers are responsible for ensuring their group and affiliated individual providers meet all qualifications.

DUPLICATIVE SERVICES

Care coordinators are responsible for ensuring there is no duplication of services.

SERVICE REQUIREMENTS

Services must be rendered in a Home and Community-Based setting rather than an institutional setting. Providers not rendering this service in a member’s private residence or a community-based non-residential setting, such as a school, should refer to the [Home and Community-Based setting policy](#) to ensure services are rendered in a compliant setting.

DOCUMENTATION

Supported education providers must provide a written monthly progress update to the member’s care coordinator. This happens for two reasons:

- 1) to ensure progress toward the member’s goals, and
- 2) to evaluate service necessity.

The member’s progress is discussed at each 1915(i) plan of care meeting and documented in the plan.

Sample progress notes:

“Met with Brooke to discuss her goals. She stated she would like math tutoring as she struggles in this area. I asked how she would like a tutoring schedule set up, and she thought twice a week for 30 minutes would be sufficient. I informed her of her tutoring options, and she will begin within the next two weeks.”

See “Documentation Guidelines” section of [Provider Requirements policy](#) for Medicaid documentation requirements.
