

LOCAL PUBLIC HEALTH UNITS SERVICE MATRIX - GENERAL INFORMATION

The LPHU Service Matrix lists the public health services offered at each of the 28 local public health units throughout the state of North Dakota. The information included in this matrix is intended to be reflective of public health services offered at local public health units (LPHUs) only. Additionally, some LPHUs may work with a neighboring LPHU to provide the 10 essential public health services in their jurisdiction. Lastly, if a service is not listed in this matrix, the service may be offered by another agency (i.e. hospital, behavioral health clinic, etc.).

The services are categorized into 15 pages. Checkmarks (✓) indicate the service is provided. A blank cell indicates the service is NOT provided by the LPHU.

Click any section below to be directed to the page of services.
