

WHAT IS OJT?

On-The-Job-Training (OJT) is a structured learning experience designed to reimburse employers for the cost of training Vocational Rehabilitation (VR) clients to develop the skills required for the position.

Each OJT agreement can be individualized to fit a variety of your business needs.

This hands-on-method of teaching is expected to decrease as the training progresses and the employee develops the required skill set.

The expected outcome of an OJT is permanent employment with valuable experience.
